Strengthening Communities Through Entrepreneurship

2021 ANNUAL IMPACT REPORT

Message from Our CEO

During this extraordinary time, AnewAmerica while facing its challenges like other non-profits, has been committed to working with clients to connect them to resources during the pandemic. We have had success in connecting our clients to capital whether through technical assistance and counseling on SBA vehicles to assist during COVID – 19 or other grants programs provided by various entities. In addition, we had two COVID 19 Business Resilience Centers, supported by funding from the U.S. Small Business Administration, that has served to help our clients and communities navigate and pivot during this time in order to not only help them sustain but also help them position their businesses for the new realities. This work is not possible without the support of our team, funders, stakeholders, partners supporters and Board. Therefore, I wish to thank all of our constituents for their support of our work. It is critical during these current times. Thank you!

Steve Dial, CEO

Our Mission

AnewAmerica changes lives through creating economic opportunities for targeted communities. Many women, minorities and immigrants face economic insecurity with no means to accumulate wealth. AnewAmerica leverages entrepreneurship to train and coach individuals to start their own business to support economic growth for themselves and their communities.
